

TWX Procedure

Director of Administration

Military Branch

31 Oct 44
EM - 72189

1

1. It is requested that the procedure governing dispatch of TWX messages by elements of MID to the Military Intelligence Training Center, Camp Ritchie, Md., be modified to permit the Military Branch, MIS, to send messages which are strictly operational in nature directly to the Pacific MIRS, Camp Ritchie, Md., without reference to the Training Branch, MID.

2. Pacific MIRS is operationally under the control of the Military Branch, MIS, and under Military Intelligence Training Center for administration and discipline. To facilitate the flow of intelligence information and to secure greater protection for the material transmitted by TWX, it is highly desirable that all unnecessary channels be eliminated.

3. TWX messages of an operational nature are now being dispatched by Pacific MIRS directly to MIS (Military Branch) by authorization of the Commandant, Military Intelligence Training Center.

EARL MATTICE,
Colonel, Infantry,
Acting Chief, Military Branch.
